

Industrial Vacuum Equipment Corporation state-of-the-art cartridge pulse jet dust collectors provide quality, dependability and service at a competitive price. Mobile units are good for indoor and outdoor use.

2500 CFM Portable Cyclone

Gasoline Powered Dust Collector Model #: PDC2500-G

•AIR VOLUME

2,500 ACFM at - 8" W.G.

•POWER SOURCE

8.9HP Honda gasoline engine
Enclosed 12VDC instrumentation
12VDC battery with protective case

•FILTRATION

4 stage filtration
-Cyclonic separator
-Stainless steel wire mesh pre-filter, spark arrestor
-(2) Nanofiber cartridge media, fire retardant, MERV 15, 520 sq. ft. media, 99.97% @ 0.3 micron
-Carbon odor discharge filter

OPTIONS

- 120/230 volt, 1 phase, TEFC motor
- 230/460 volt, 3 phase, TEFC motor
- On-Board air compressor package
- Compressor cold weather kit
- Sound package for ultra quiet operation
- HEPA filter media
- Poly paint pad pre-filter
- Refillable carbon tray filter
- Explosion proof options NEMA 7/9
- Automatic timed pulse jet cleaning
- Fork pockets or single lift point
- Bulk bag unloading attachment
- 55 gallon drum lifting & pivot clamp

STANDARD EQUIPMENT

- (1) 8" QF inlet hose connection with 6" QF reducer
- Adjustable 55 gallon drum adapter (drum not included)
- (4) 5" diameter casters, swivel locking
- Manual push button cartridge pulse jet cleaning
- Inlet air regulator with gauge
- Magnehelic gauge
- Dust & debris dropout drawer
- 12 gauge carbon steel construction
- Epoxy primer & polyurethane enamel top coat
