

Industrial Vacuum Equipment Corporation state-of-the-art cartridge pulse jet dust collectors provide quality, dependability and service at a competitive price. Mobile units are good for indoor and outdoor use.

2000 CFM Portable Cyclone

Gasoline Powered Dust Collector Model #: PDC2500-G

•AIR VOLUME

2,000 ACFM at - 6" W.G.

•POWER SOURCE

8.9HP Honda gasoline engine
Enclosed 12VDC instrumentation
12VDC battery with protective case

•FILTRATION

3 stage filtration
-Cyclonic separator
-Stainless steel wire mesh pre-filter, spark arrestor
-(2) Nanofiber cartridge media, fire retardant,
MERV 15, 520 sq. ft. media, 99.97% @ 0.3 micron

OPTIONS

- 120/230 volt, 1 phase, TEFC motor
- 230/460 volt, 3 phase, TEFC motor
- Dual Voltage Selector switch, 240/480V
- On-Board air compressor package
- Compressor cold weather kit
- Sound package for ultra quiet operation
- HEPA rated discharge filter
- Poly paint pad prefilter
- Explosion proof options NEMA 7/9
- Bulk bag unloading attachment
- 55 gallon drum lifting & pivot clamp

STANDARD EQUIPMENT

- (1) 8" QF inlet hose connection with 6" QF reducer
- Adjustable 55 gallon drum adapter (drum not included)
- (4) 8" diameter casters, swivel locking, removable
- Automatic timed pulse jet cartridge cleaning
- Inlet air regulator with gauge
- Magnehelic gauge
- Dust & debris dropout drawer
- Fork pockets in base
- 12 gauge carbon steel construction
- Epoxy primer & polyurethane enamel top coat
